

Meeting “ARE WE PREPARED FOR A LARGE SCALE RADIOLOGICAL ACCIDENT IN EUROPE?”

26th of February of 2014, Assembly Hall of Hospital Universitario y Politécnico La Fe (Valencia)

“Realizing the European Network of Biodosimetry” (RENEB) is a Coordination Action project funded within the 7th EU framework EURATOM Fission Programme.

RENEB will establish a sustainable **European network in biological dosimetry** for mutual assistance in a **large scale radiological accident**. The main goal of this network is cooperation between partner organisations to guarantee the highest efficiency in the processing and analysing biological samples for a fast and reliable radiation absorbed dose reconstruction implemented in the EU emergency management.

The public session of the 3rd annual meeting held by RENEB members, entitled: "ARE WE PREPARED FOR A LARGE SCALE RADIOLOGICAL ACCIDENT IN EUROPE?" will be hosted by the Hospital Universitario y Politécnico La Fe, the 26th of February of 2014. This session aims to provide an overview about methods and strategies to measure doses received by people in the event of a large radiation accident.

Programme

- **9:00 – 9:15. Welcome:** Manuel Llombart, Honorable Health Councillor and Melchor Hoyos, Director of Hospital Universitario y Politécnico La Fe.
- **9:15 – 9:35. WHO BioDoseNet:** Zhanat Carr, WHO.
- **9:35 – 10:00. IAEA Coordinated Research Project (CRP) Strengthening of “Biological dosimetry” in IAEA Member States:** Oleg Belyakov, IAEA.
- **10:00 – 10:20. NERIS - European Platform on preparedness for nuclear and radiological emergency response and recovery:** Florian Gering, NERIS.
- **10:20 – 10:40. Multibiodose - Multi-disciplinary biodosimetric tools to manage high scale radiological casualties:** Andrzej Wojcik, Multibiodose.
- **10:40 – 11:00. RENEB - Realizing the European Network of Biodosimetry:** Ulrike Kulka, RENEB.
- **11:00 - 11:30. Coffee Break**
- **11:30 - 12:00. Press conference**

Please confirm assistance by providing full name, identification number and work institution to the following e-mail address: montoro_ale@gva.es
